

**Police Forensic Specialist II** – City of Whittier, CA (Salary: \$4,502 - \$6,348/mo., plus excellent benefits package).

Under general supervision, performs complex technical crime scene investigation work involving the identification, collection, processing, and preservation of crime scene evidence; performs other related duties as required. The Police Forensic Specialist II is the journey level class in which incumbents are expected to independently perform the full scope of assigned police forensic duties. The work requires independence and discretion in investigating crime scenes. This position requires the incumbent to testify in court as an expert in latent fingerprint comparisons.

A typical way of obtaining the required qualifications is to possess the equivalent of an Associate's degree in forensic or police science, or a related field, and two years of experience in crime scene investigations for a Police Department, involving responsible public contact work.
